

WORKSHOP

FOR EDUCATORS

Project Learning Tree's new flagship curriculum Explore Your Environment: K-8 Activity Guide provides 50 hands-on, multidisciplinary activities to connect children to nature and increase young people's awareness and knowledge about their environment. Activities include detailed step-by-step instructions, academic correlations, time and material requirements, and corresponding student worksheets with green career connections. Activities are organized by grade band (K-2, 3-5 and 6-8), are correlated to the SC Department of Education standards and align with national standards for science, English language arts, math and social studies.

Participants will first partake in a 1.5-hour live video conference in which they will get acquainted with the South Carolina state program, learn about helpful online resources, and participate in two PLT activities. They will then get access to an electronic copy of the activity guide and the accompanying online professional development training, which will be completed individually. Once completed, participants will receive an official certificate of completion from the SC PLT program.

Learn more at www.plt.org/k8guide.

This workshop
is approved
for 5 hours of
SCDE renewal
credits!

Date: Aug. 12, 2021
